SKILLS

- ❖ HTML , CSS
- ❖ Javascript
- ❖ Node JS
- ❖ Express JS
- ❖ MongoDB
- ❖ MySQL

EDUCATION

- ❖ **B.E. (Computer Engineering)**   *2021 - pursuing*
  Silver Oak College of Engineering and Technology,
  Ahmedabad.
- ❖ **H.S.C | (69.69%)**   *2020 - 2021*
  A Success School ,Jetpur.

EXPERIENCE

- ❖ **Internship at CodSoft**   *Dec - 2023*
  Details: During my tenure at CodSoft, I undertook and delivered three notable web development projects: a refined landing page leveraging HTML and CSS, an engaging portfolio website incorporating HTML, CSS, and JavaScript, and a robust calculator application developed with HTML, CSS, and JavaScript. These endeavors underscore my adeptness in front-end development and adept problem-solving abilities in web application design.

PROJECTS

- ❖ **Stay Finder**
  Technologies: HTML, CSS, Node JS, Express JS, MongoDB
  Details:
  Find Stay : Implemented CRUD operations for displaying hotels and other staying places using Node.js and MongoDB, ensuring efficient data handling and storage.
  Map Integration: Integrated Mapbox's API for geospatial data visualization.
  Review System : Developed a robust review system allowing users to post, edit, and delete reviews using RESTful API endpoints and MongoDB.
  User Authentication : Implemented secure user authentication using Passport.js with Passport Local and Passport-Local-Mongoose strategies.
  Backend Development : Leveraged Express.js for server-side routing and middleware, optimizing API performance and scalability.
